

## PR Chair Report 5/4/2025

It has come to my attention that the PR Report has been missing information. I apologize for that. I do not currently have the info that has been missing but I will work on getting the proper reports this month so that moving forward my reports are complete.

### Highlights:

Missed calls: 24% (5)

Volunteer lookups - CALL (21)

Meeting lookups - CALL (9)

Volunteer lookups - SMS (0)

Meeting lookups - SMS (6)

All voicemails answered

We need a new printer for schedules - price may increase

We elected a new web 1 and our previous web 1 slid into the web 2 position to continue to provide support for web 1 as they learn.

I learned a lot more about PR this month. Looking into some older projects to see how we can put to use the work those trusted servants started.

H&I needs more south area panel leaders.

We are looking for:

Vice Chair

Secretary

Web 2

Newsletter Coordinator

Special Projects coordinator

PR Sub Reports:

Web 1

Greg - did whatever was necessary. Finally reformats the long form for meetings so there's more room for signatures. Should reflect everything that is current. Updated Zoom link for H&I

Web 2

Caitlin

Has final pdf to send to group for printing (nicole)

Wondering who has the schedule of how often things get sent to print - should be quarterly but it's in flux since covid bc we didn't use a ton of them. At least 3 times a year. Whenever the schedules coordinator - Nicole is here!

Schedules:

Nicole says they print once a quarter - last time they dropped them off was for February area. Need new printer guy - Caitlin is open to helping. Printer guy is moving to Florida. We can ask around. Our prices may go up. Ask Dan to see if he has any recommendations.

Helpline

All voicemails answered

One guy - kept calling to talk - I told him that the primary purpose of this helpline is to help addicts find a meeting. If he wants to talk with someone, go to a meeting and ask for a phone list and/or phone numbers. He got the idea for a while, but he called again. [REDACTED]

[REDACTED] He seemed to understand when I talked to him but he has started calling again to talk about recovery (which is not what this is for and it takes up peoples time who could be answering the line) if i see him call again i'll answer and if he asks to talk i'll say we have to block him if he keeps doing this

H&I: Mary

H&I just had their meeting, Greg just changed the zoom information on the website - its the same one as PR. H&I is doing well, seem to have a gap for finding panel leaders especially in the south side for year long commitments. North end heavy. People are stepping up temporarily. People who aren't qualified but are involved and wanting to eventually be leaders in the south end. Greg will probably get another communication about how they want to move forward with training forms from Cheryl. Mary was running zoom and doing other things so she will send you the information verbatim. Slowly moving back into King County jails. Can we reach out to South King County h&i - yes we are working with them to fill positions. Saying yes to 2 panels a month and increasing them slowly.

Written H&I report:

We conducted 15 panels at facilities this month, oriented 4 new speakers and added 1 new panel leader.

We meet the last Sunday monthly at 1:15 PM, Recovery Cafe on Boren.

If you're interested in H&I service, please come get oriented in person at our subcommittee meeting. If you can't make that time, reach out to me to schedule an orientation (6 months clean time required). If you've already been oriented, you're invited to join our meetings either on Zoom or in person.

Members with 1 year clean time who have been active in H&I for 6 months and who have attended 3 consecutive h&i subcommittee meetings can become panel leaders. Panel leaders coordinate speakers and facilitate panels at facilities.

Facilities reach out to us often, and we want to serve all of them on a weekly basis. However, without enough panel leaders to facilitate these panels, we're unable to serve at full capacity.

We currently have an urgent need for both leaders and speakers in the downtown to South Seattle area. We have had to call upon South King County area to help us support h&i panels in these areas because we do not currently have enough panel leaders or speakers in these areas.

Carrying the message through H&I is one of the most direct ways we fulfill our primary purpose. When we share in these facilities, we often become the first glimpse of NA for many still-suffering addicts.

GSRs, please take this information back to your home groups so we can welcome new volunteers.

In Loving Service,

Mary

Chair report

Lennox

Nothing to report except - we voted to create an ad hoc meeting to clarify guidelines for online meetings, there was a question about what area they should be in (online meetings). If there's contact info. No world convention for 2027. It's still going to be a thing, but will look very different. Why? They didn't explain further. Something about finding locations he thinks. On the world service bulletin board it says. World convention in DC they lost money due to low attendance. Concern about losing money. Ad-hoc committee for online meetings - Alan is interested. No one has joined. Trying to figure out a time and letting the body know about the time to see if anyone wants to go. Zoom most likely.

Thanks,

Lennox G
